RULES FOR COUNTING CIRCULATION Adapted from A. L. A. (1915)

Statistics shall be counted from book cards or slips for each bound volume, pamphlet, or periodical lent for home use. The counting of prints, music-rolls or other material is also desirable but should not be counted in book totals.

Renewals shall be counted at or near the end of a regular period of issue, but no increase shall be made because books are read by others, or for any other reason.

*The act of sending books to an agency of any kind shall not be regarded as an issue to be counted, but the number sent to such agencies shall be reported separately.

**The count for books lent from an agency for home use shall be from actual circulation reported from such agency. Estimates of circulation shall not be counted.

("Agencies" include all branches, stations, school rooms, fire engine houses, police stations, factories, clubs, etc.)
